

CK-DEFENSE Consulting

Core Capabilities & Expertise

Founder & Lead Consultant: Kenneth W. Evans

Co-Founder & CEO/Owner: Mr. Cho

Company Overview

CK-DEFENSE delivers mission-ready defense consulting, logistics, and technical training solutions for allied forces and defense industries across the U.S., NATO, and Republic of Korea. With over 40 years of hands-on experience in depot-level maintenance, automated testing, and defense logistics, CK-DEFENSE integrates proven operational practices with advanced automation and AI-based instruction.

Core Capabilities

- Depot-Level Maintenance & Sustainment — Full diagnostic, repair, and lifecycle support for complex weapon and communication systems.
- Automated Test Equipment (ATE) / IFTI Integration — Development, calibration, and sustainment of test stations ensuring mission reliability.
- Defense Logistics & Supply Coordination — Global import/export expertise under NATO and U.S. Customs Border Clearance Programs (CBCP).
- Calibration & Optical Systems Testing — Precision testing for optical, electrical, and electronic components.
- AI & Technical Training Programs — Defense-focused English and AI literacy instruction delivered by certified, field-experienced instructors.
- Strategic Advisory & Compliance — Policy alignment with U.S., NATO, and Korean procurement and documentation standards.

Key Differentiators

- 40+ years of operational experience with U.S. Army, NATO, and defense primes.
- Member of NATO's first team to integrate SAP into enterprise systems.
- Authored operational procedures for U.S. Customs (CBCP) and NATO Expeditior Services.
- Expertise spanning defense automation, AI-based readiness, and technical education.
- Multilingual operations (English / Korean / French / German / Luxembourgish).
